Management

Subham Dey

Full Stack Web Developer

Professional Summary

Aspires to create some good web applications by leveraging my skills in Frontend and Backend development by producing production-ready code. A team player and a collaborative developer having Leadership, Management, and teaching skills who is strongly interested in working in a product-based company. Have built some of the amazing clones of some of the well-known web applications collaboratively as well as individually.

Projects

SparkAmerica Clone

SparkAmerica is an American health awareness community-building website where people register themselves and engage with the community.

Tech Stack : ReactJS | JavaScript | React Router | Chakra UI | Typescript

Features:

- Developed the Landing page
- Developed the Navbar for the landing page as well as a common navbar for all the pages
- Built all the pages and different routes
- Built the common footer, the register page, and a dummy page through which users can request a verification code via email

This was a solo project built by me in 4 days

PharmEasy Clone

An e-Commerce web Application that widely provides e-Pharmacy, Diagnostics, and Healthcare solutions

Tech Stack : HTML5 | CSS | Local Storage | JavaScript

Areas of responsibility :

- Built the Cart Page
- Built the footer for the Cart Page

A collaborative project built by a team of 6 executed in 6 days
